

Rensselaer

BIOLOGY B.S.

This vast field examines the structure, function, growth, origin, evolution, and distribution of living things. At Rensselaer, we emphasize modern techniques and interdisciplinary learning. Students obtain knowledge in a diverse range of biological sub-disciplines, including molecular and cellular-level biology or ecology and evolution. Together, the curriculum provides a strong background in quantitative, physical, and chemical biology.

FIRST YEAR

FOOTNOTES

1. *Students who apply Advanced Placement credits in place of BIOL 1010 may take BIOL 2120 & BIOL 2125 in its place.*
2. **Humanities and Social Sciences (HASS) Core Electives:** *A total of 24 credits of HASS Core Electives should be taken. Students should take an Inquiry course during their first year. For a listing of HASS Inquiry courses go to: <https://info.rpi.edu/hass-inquiry>. In addition, students should take a HASS Communications Intensive course during their first three semesters.*
3. *Communication Intensive and Culminating Experience Requirement cannot be satisfied with transfer credits and must be fulfilled via the **Advanced Laboratory requirement**.*
4. **Biology Elective Requirement (16 credits).** *Biology electives may include any BIOL courses, and up to 1 BCBP course. No 1000 or 2000 level courses can serve as Biology electives. No more than one of the following courses may serve as Biology electives: BIOL 4900 or BIOL 4970. No more than one 4000-level elective can be met with transfer credits.*
5. *An additional 2-CR elective may be satisfied by mentoring, research (e.g. BIOL 2900, 2930, 2940, 4940, 4970), or any other elective. This credit may be taken at any time, not necessarily at the time shown in the template.*
6. *Cannot be satisfied with transfer credits.*
7. *For students who have applied for and been granted an exception, The Arch Summer courses would be taken during the fall semester. For listing of the exception process go to: <http://info.rpi.edu/arch/students/#ExceptionProcess>*

BIOLOGY ELECTIVES

Careful selection of biology electives in the third and fourth years may contribute significantly to preparation for various professional goals. Students who anticipate working on a senior thesis are strongly urged to take BIOL 4200 Biostatistics as soon as possible and one of the following advanced laboratory courses (BIOL 4320, 4710, BIOL 4720, BIOL 4740) in their junior year, since these courses offer excellent preparation for independent laboratory work. and meet the communication intensive requirement.

ADVANCED LABORATORY COURSES

BIOL 4320	Microbiology Laboratory	BIOL 4720	Molecular Biology Laboratory
BIOL 4710	Biochemistry Laboratory	BIOL 4740	Adv. Cell Biology Laboratory
